DAKOTA DIGITAL MCL-3000 SERIES FOR BAGGERS

Complete 6 gauge set plugs directly into your stock wiring. Set includes speedometer with odometer and dual trip meters, tachometer, oil pressure, oil temperature, voltage and fuel level gauges. Additional features include: Service Meter, Clock, Gear Position, 0-60 time, 1/4 mile time, 1/4 mile speed, High Speed and RPM Recall. Includes Cruise On and Cruise Engaged indicators as well as Security, Check Engine, and ABS light. Extremely bright L.E.D. displays are highly visible in sunlight! Includes: oil temperature sensor and wiring and uses existing stock sensors. User selectable for metric applications as well as one-time user settable odometer.

- Plugs directly into stock wiring harness
- Uses your bike's stock sensors, includes oil temperature sensor
- Triple chrome plated, CNC machined front chrome bezels, black bezel kit available
- Vibrant Blue or Red L.E.D. displays

DAKOTA DIGITAL MCL-2000 SERIES FOR ROAD KINGS/SOFTAILS

High-Brightness displays for your stock dash! Fitting models with a Fat-Bob 4.5-5" dash opening (Various Softail, Road King, Fat Boy, Deuce, and Wide Glide models), this next generation offers a wealth of upgrades and improvements! The MCL-2004 (04-12 models, except 11-12 Softail) offers a direct plug-in installation for extremely simple installation, while the MCL-2002 models easily hardwire into the bike's existing harness allowing more flexibility for custom applications. Both models feature High Brightness L.E.D. Displays for great daytime visibility!

- Fully adjustable 0-255 MPH
- Wrap-around adjustable tachometer, can also display in digital numeric readout
- Cylinder Head Temperature Display (MCL-2004 only if factory equipped model)
- Oil/Air Pressure and Oil Temperature Displays (sensors purchased separately, use of temperature display eliminates Cylinder Head Temperature readout)
- Gear Shift Position Indicator (4 to 7 speed transmissions)
- Odometer is able to be user preset upon installation to match vehicle mileage
- Dual Resettable Trip Odometers
- Clock, Hourmeter, Voltmeter with Low Voltage Alert and Countdown Service Meter
- Indicators: High Beam, Left/Right Turn, Neutral, Low Oil Pressure, Engine, Security, (ABS, Cruise On/Engaged, Low Fuel on MCL-2004)
- Performance Displays: 0-60 timer, 1/4 Mile Time and Speed, High RPM/Speed Recall
- Auto Night Dimming

DAKOTA DIGITAL MCV-7000 SERIES UNIVERSAL INFORMATION SYSTEMS

The MCV-7000 Series is designed primarily for handlebar-mounted applications. The MCV-7100, 7200 and 7400 have the flexibility to mount either above or below the handlebars, with the MCV-7300 mounting above only. Dakota Digital offers a wide variety of mounts to suit many common applications. To allow flexibility, the MCV-7000 can accept any type of electronic speed signal coming from an existing speed sensor, or many aftermarket varieties. If a speed signal does not exist, several options exist to allow simple installation in nearly any application.

- Multifunction Displays: Digital Clock, System Voltage, Performance Calculations, Resettable Service Meter, Odometer / Dual Tripometers, Oil Pressure Readout (when using supplied sender)
- Bar Graph Tachometer
- 0-199 MPH Speedometer
- Turn and High Beam Indicators
- Fuel Gauge or Indicator
- Gear Position Indicator with Neutral Light
- Oil, Engine and Battery Warning Lights

21-1181

DAKOTA DIGITAL MCL-5000 SERIES UNIVERSAL INFORMATION SYSTEMS

The MCL-5000 series replaces the ever popular HLY-5011. As with all MCL series gauges, these speedometers are easily visible in direct sun. Features include a 0-255 MPH/km/h adjustable speedometer with odometer and trip meter. Also included are indicators for left and right turn, high beam, neutral, low oil pressure, and check engine. Uses BKT-50xx series brackets and SEN-60xx series speed senders.

- 0-255 MPH
- Odometer with Trip Odometer
- Turn Signals, High Beam, Neutral, Low Oil and Engine Indicators
- Vibrant blue L.E.D. display for tremendous daylight visibility

NOTE: The TSI-1 will be required to retain the use of stock H-D self cancelling turn signals on some years and models.

DAKOTA DIGITAL HLY-3000 SERIES UNIVERSAL ROUND INSTRUMENTS

The revolutionary HLY-3000 Series digital instruments incorporate the latest in microprocessor and display technology coupled with the durability of machined aluminum housings and the brilliant look of chrome bezels. Offering you everything from a single 2-1/16" mini speedometer to a full complement of engine monitoring readouts in a 3-3/8" gauge, you can create your own look and statement. All HLY-3000 Series instruments come with a limited 2-year warranty.

DAKOTA DIGITAL HLY-3011 PERFORMANCE SPEEDOMETER

- 3-3/8" gauge
- Adjustable 0-100 MPH
- Unique alpha-numeric readout is used to display odometer, dual trip odometer, service meter, high speed recall and 0-60 time
- Also includes turn signal and high beam indicators

21-1020 HLY-3011 **$294.95**

DAKOTA DIGITAL HLY-3013 MINI SPEEDOMETER

- Mounts in a conventional 2-1/16" opening
- Adjustable 0-255 MPH
- Contains both odometer and resettable trip odometer

NOTE: TSI-1 will be required to retain the use of stock H-D self cancelling turn signals on some years and models.

21-1022 HLY-3013 **$294.95**

DAKOTA DIGITAL HLY-3015 MINI COMBO SPEED/TACH

- 2-1/16" diameter and only 1" deep adjustable speedometer
- Full complement of indicators: adjustable tachometer, MPH and blackout effect when off
- External control module allows for simplified wiring
- Unit contains all indicators including turn signal, high beam, neutral, low oil pressure and engine for fuel injected
- Selectable screens allow the rider to display speedometer only, speedometer with odometer and trip meter, or speedometer with bar/graph tach
- Menu driven setup allows easy configuration and calibration to any bike

21-1038 HLY-3015 **$489.95**

DAKOTA DIGITAL HLY-3016 COMBO SPEED/TACH

- Fully functional speedometer, tachometer, gear position indicator, odometer, dual trip odometers and all of the necessary indicators including turn signals, high beam and several others
- 3-3/8" housing
- 0-60 timer
- 1/4 mile time and speed, high speed and RPM recall

49-8392 HLY-3016 **$314.95**

DAKOTA DIGITAL HLY-3021 PERFORMANCE TACHOMETER

- Readouts display RPM along with high RPM recall, shift indicator set point and hourmeter
- 0-18,000 RPM range
- Adjustable from 1-15 cylinders
- 3-3/8" size fits most aftermarket mounts

21-1021 HLY-3021 **$294.95**

DAKOTA DIGITAL HLY-3027 MINI TACH

- Readouts display RPM along with 0-18,000 RPM range with 10 RPM resolution below 10,000 RPMs and 100 RPM resolution above 10,000 RPMs
- High RPM recall
- Adjustable from 1-15 cylinders

21-1023 HLY-3027 **$294.95**

DAKOTA DIGITAL STM-100 DATA BUS BREAK OUT

- Allows you to interface universal Dakota Digital and most aftermarket Speedometers and/or Tachometers with the data bus signal created from the stock Harley-Davidson® ECU 04-12 (excluding 11-12 Softail, Dyna Models)
- Connects to the bike's data bus and outputs traditional analog signals for a gauge of your choice
- Outputs provided for accessory power and ground, tachometer signal (adjustable for 1, 2 or 4 cylinder outputs), speedometer signal (8,000ppm) in addition to the Check Engine signal, normally only available on the data bus
- In addition to wired outputs, the STM-100 contains a digital readout which allows for both reading back and clearing diagnostic trouble codes, similar to a scan tool

DAKOTA DIGITAL ELECTRIC SPEEDOMETER INTERFACE MODULE

- Plugs into 96-06 H-D speed sensor harnesses to correct the speedometer and odometer after a change in tire size, pulley size or transmission gearing
- Unit plugs directly between the stock transmission sensor and original speedometer - no cutting or splicing required on most models
- 07-Up H-D models may require hard wiring into bike harness
- 2 pushbutton switches allow the original speedometer reading to be increased or decreased easily
- Can correct speed to within 1 MPH from 50% to 280% of the original reading
- Sealed completely from water, dust and dirt, the module is easily tucked away into the bike's wiring harness after adjustment is complete

21-1016 SIM-1 **$114.95**

DAKOTA DIGITAL PICK-UP ADAPTER

- Fits 96-04 H-D models

Description	Mfg/N	P/N	Retail
For 1000/3000 Series	SEN-1012	**21-1004**	**$19.95**
For 2000 Series	SEN-2012	**21-1001**	**19.95**

DAKOTA DIGITAL CABLE DRIVE ADAPTOR

- Screws to end of speedometer cable (5/8" and 16mm speedo cable threads)
- Sender is remotely mounted, not directly to speedometer

49-8612 SEN-6011 **$34.95**

DAKOTA DIGITAL TRANSMISSION SPEED SENSOR

- Mounts in stock transmission location on 96-Up H-D models as well as most aftermarket transmissions

49-8614 SEN-6017 **$79.95**

DAKOTA DIGITAL TURN SIGNAL INTERFACE MODULE

- Allows the HLY-1000, HLY-3013/3014, MCL-5000 and MCL-4000 series speedometers to work with stock H-D automatic turn signal cancel modules
- Easy to connect and use, it requires only 12 volts, ground, speed in and turn output

21-1045 TSI-1 **$19.95**

DAKOTA DIGITAL OIL/WATER TEMPERATURE SENSOR

- 0-400°
- Screws into crankcase or oil reserve tank (drilling and tapping required) or oil line using appropriate fittings

21-1041 SEN-1043 **$24.95**

DAKOTA DIGITAL REAR WHEEL SPEED SENSOR

- Clamps around axle spacer and used on most Softail and rigid applications
- 2"W x 2-3/4"L x 1/2"Thick
- 1-3/32" hole

49-8615 SEN-6018 **$119.95**

DAKOTA DIGITAL UNIVERSAL INDUCTIVE SPEED SENSOR

- Reads rear drive pulley teeth or steel rear sprocket teeth
- 1/2" diameter, 1" length

49-8616 SEN-6019 **$59.95**

SENSORS, TACH ADAPTERS & SPEEDO CALIBRATOR

THUNDER HEART PROGRAMMABLE TRANSMISSION SENSOR
- The fully adjustable speedometer transmission sensor is the answer to inaccurate speedometer readings
- Allows you to make adjustments to these types of changes: tire size, pulley, gear ratio, non-programmable speedometers and any other changes that effect speedometer readings
- Custom applications

59-0413 **$99.99**

THUNDER HEART ELECTRONIC SPEEDO SENSOR
- Electronic speedometer sensor is the simple solution to converting to an electronic speedometer or O.E.M. replacement
- Comes with Deutch connectors
- Polished type finish
- Fits 96-06 Softail; 94-99 FXR

41-0144 **$62.99**

SHOW CHROME® ACCESSORIES DIGITAL 5 FUNCTION VOLT METER
- Voltage monitoring from 11.0V to 16.0V
- Includes thermometer, ice alert, clock, stop watch and lap counter
- Attaches with Velcro®

41-7536 **$34.99**

BARON CUSTOM ACCESSORIES TACH ADAPTER
- For use with most aftermarket electronic tachometers
- Provides correct RPM display
- Reduces needle fluctuation
- Integrated features allow use on 08-11 Harley-Davidson® models
- Fits 2 or 4 cylinder engines with single fire ignition systems

42-2010 **$29.95**

BIKER'S CHOICE® ELECTRONIC SPEEDO PICK-UP
- Replaces O.E.M. pick-up
- Fits 96-99 FXST models

21-5266 **$57.95**

BIKER'S CHOICE® SPEEDOMETER CALIBRATOR
- Corrects stock electronic speedometer readings when drivetrain modifications have been made
- Easy installation
- Fits Big Twin models with electronic speedometers

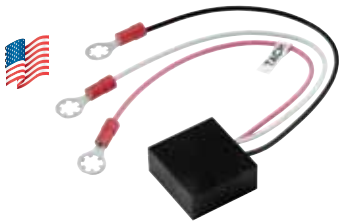
21-5267 **$89.95**

CRANE CAMS® TACH ADAPTER
- Fits 71-03 Sportster; 71-99 Big Twin with any single-fire ignitions (exc. Twin Cam)

46-1710 **$39.95**

DYNATEK TACH ADAPTER
- Corrects tach reading error caused by single fire operation

21-7579 **$21.00**



COMPU-FIRE® TACH ADAPTER
- Electronic tach adapter for single-fire ignitions

BIKER'S CHOICE® FAT BOB TANK PANELS

- Fits 41-84 FL models

49-2401 **$17.50**

ADJURE PHAST LOCK™

A Revolution in Bucket Design

Tired of threaded retaining rings that seize sooner or later**?** Or ugly external hardware that inevitably rusts**?** Adjure Inc. is proud to unveil its exclusive, patented Phast Lock™ retainer. We simply use a nylon rod to lock the headlight bezel in place and a small stainless steel spring to lock the rod. A breeze to assemble and disassemble, yet invisible when finished. Available on all 7", 5-3/4", 4-1/2" and 3" buckets.

Never Been So Easy

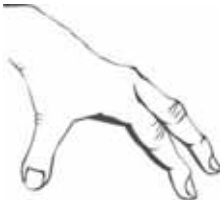
Remember all the problems in the past when trying to replace a bulb or a lamp**?** The seized threaded bezel and the rusted ugly screws just would not come off or not able to find the specific tools for the job. Phast Lock™ eliminates the problems with easy installation. Pull one end of the "Lock Spring" off the rod. Push in evenly on the bezel or lamp and pull out the nylon rod. All the other components can now be removed. Your bulb or lamp can be changed in seconds.

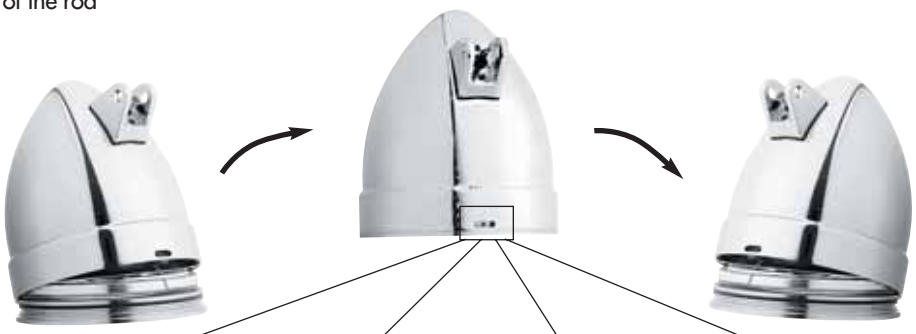
Assemble

- Install the locator ring, lamp and bezel in the order shown in the image at the bottom of the page
- Press in on the lamp or bezel to collapse the locator ring and put the bezel evenly flush to the bucket. This will line up the rod groove
- Push the nylon rod all the way into the hole until you can see both ends
- Now pop the end of the "Lock Spring" over the other end of the rod

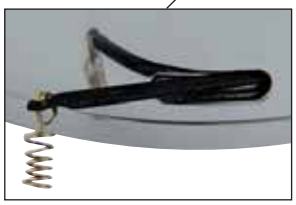
Disassemble

- Pull one end of the "Lock Spring" off the rod
- Push in evenly on the bezel or lamp and pull out the nylon rod. All the other components can now be removed.





The slot hole is located on the bottom of the bucket



Nylon rod is being pushed into the hole to assemble

Nylon rod is pushed all the way in so both ends are showing. Pop the loose end of the "Lock Spring" over the plain end of the rod

Pull the end of the "Lock Spring" off the plain end of the rod to remove rod

SPOT LAMP MOUNTING BRACKETS

HEADWINDS®
2" BILLET SPOTLIGHT BARS/LOWER TREE COVERS

- CNC machined with 6061-T6 billet aluminum
- Designed with style and ease of installation under the lower triple tree
- The light bar profile matches the lower tree and features milled grooves to hide wiring
- Most bars are equipped with wire retaining clips to further ease installation
- Spotlight bars triangulate and stagger lights down and back giving the bike the appearance of motion without moving
- It doubles as a lower tree cover hiding the rough stock casting, giving the lower tree a finished billet look
- Made in the USA

FLHR ROAD KING MODELS

- Chrome-plated
- Easy installation
- Patented
- Bolts to the headlight mount
- Fits with detachable windshield, spotlight lowering kit is not required
- Hides stock brake line connector

46-3369 **$156.00**

FLST FAT BOY, HERITAGE, HERITAGE CLASSIC MODELS

KURYAKYN® DRIVING LIGHTS

KURYAKYN® DRIVING LIGHTS

- Compact, stretched bezels and stylized fully adjustable brackets provide a clean, stiletto sharp look with intense, focused light output from the halogen driving light kit
- Complete kit includes everything you need to bolt them on and plug them in

Note: Installation does not interfere with removal or installation of stock detachable windshield on Road King models

Description	P/N	Retail
97-11 Electra Glide; 06-11 Street Glide; 97-11 Road King (Mfg/N 5005)	49-4756	$399.99
98-11 Road Glide (Mfg/N 5007)	49-4757[1]	399.99

[1] This kit's unique bracket configuration allows placement of these compact lights in the same location as the stock turn signals and also permits full adjustment.

NEW

KURYAKYN® CLAMP-ON FORK MOUNTED DRIVING LIGHTS

- Punch bright holes through the darkness for better night vision and to make you more visible
- Super sleek 3" Halogen Bullet driving lights are combined with an innovative mounting kit to allow simple installation on exposed 39, 41 or 49mm fork tubes
- Unique clamp-on brackets place the driving lights on front of or to each side of the fork tubes for clearance with other accessories or to get just the look you want

- Designed to mount directly to forks with Kuryakyn's® 2-piece fork clamps, sold separately
- Mfg/N 5009
- Universal fitment for installation with 2-piece fork clamps. Not intended for use on motorcycles with O.E.M. fork shrouds

49-6264 $369.99

BIKER'S CHOICE
NEW PART NUMBERS ARE RED

KURYAKYN® SILVER BULLETS™

- Halogen Silver Bullets™ and Single Function L.E.D. Reflector Style Silver Bullets™ have a single power wire and ground through their mount
- Dual function L.E.D. Reflector Style Silver Bullets™ have 3 wires; run, flash and ground. They cannot be used for run-brake applications because they do not change intensity; they go from steady-on to on-off flash
- When installing halogen Silver Bullets™ as driving lights, the manufacturer recommends using wiring and relay kit (Mfg/N 2328) to avoid overloading the motorcycles running light circuit

Note: There is no need to use a Load Equalizer with halogen Silver Bullet™ Kits. Although Silver Bullet™ lights are extremely bright and highly visible, the installation of this product may be in violation of FMVSS #108 not intended as a replacement for stock turn signals.

KURYAKYN® UNIVERSAL SILVER BULLETS™

HALOGEN SILVER BULLETS™

- Assembled with high-stock, heavy-duty single filament 20 watt quartz halogen bulb
- Manufacturer recommends using them as auxiliary driving lights to help riders see and be seen

ARLEN NESS BOLT-ON TURN SIGNALS WITH POWER L.E.D.

- These are some of the cleanest and brightest direct bolt-on turn signals you will ever find for your ride. No spacers are adapters necessary
- Compact billet design flows nicely into your forks or fender strut to make them almost invisible
- Contains 2 Power L.E.D.s that are equivalent to nearly 25-30 traditional L.E.D.s
- CNC machined housing
- Length: 2.5"
- Sold in pairs in chrome or black anodized

Amber Lens H-D#59180-80	59-0358	47.99

RELAYS, PRIORITY LITES & BADLANDS

TURN SIGNAL FLASHER

- Variable load flasher
- Fits 65-90 H-D with custom signal lights

22-3740 H-D#88543-64B **$4.95**

STANDARD® FLASHER RELAY

- Fits 65-88 H-D models

21-0156 H-D# 68541-64A **$5.39**

STANDARD® HEAVY-DUTY HEADLIGHT RELAY

- Allows control of hi-low beam from 1 wire using a button type switch
- Custom applications

21-5211 **$46.99**

PRIORITY PLUS

- Turns stock rear turn signals into running lights and flashing stop lights
- Apply brake; running lights flash 1-2 seconds, then full brightness
- No interference with brake light operation

07-4051 **$70.95**

PRIORITY LITES

- Turns existing rear turn signals into running lights and stoplights
- Will not affect turn-signal function
- No bulbs to change

07-4047 **$50.95**

BADLANDS LOAD EQUALIZER II

- Load Equalizer II performs exactly the same function as the Load Equalizer I with the added feature of allowing you to retain emergency flasher capability
- This unit has a built-in thermostat which retains the resistor's heat while your bike is functioning in emergency flasher mode
- Made in USA by real bikers

49-9211 **$34.95**

BADLANDS LOAD EQUALIZER

- Designed to return amperage "draw" to the correct factory specification when using custom signal lights
- May be used instead of variable load flasher on earlier model years
- Fits 91-Up H-D with self-cancelling signals

49-9200 **$26.95**

BADLANDS LOAD EQUALIZER III

- For Harley-Davidsons® with the TSSM Security/Alarm Module or TSM Turn Signal Module
- Intended for 1991 and up standard turn signal modules
- Will run emergency flashers for any amount of time
- Designed for parade use
- Solid state construction that is waterproof and produces no heat
- Works on any Harley-Davidson® with self-cancellers
- Fits 91-Up H-D models

Description	P/N	Retail
91-up H-D Models (Hardwire)	**49-9203**	**$69.95**
97-up FL; 96-up Softail,97-up FXD; 99-03 XL; 2010 Trike when converting to L.E.D. taillights	**49-9193**	**69.95**
04-up XL, XL1200N	**49-9194**	**69.95**
10-11 Road Glide, Street Glide without Center Taillight	**49-9189**	**69.95**

BIKER'S CHOICE

NEW PART NUMBERS ARE RED

BADLANDS ILLUMINATOR

- Turns running lights into brake lights
- Built in load equalizer
- Runs stock O.E.M turn signals
- Runs even the smallest turn signals
- Capable of running 2 rear turn signals
- Fits 91-Up H-D models

49-9223 **$99.95**

BADLANDS ILLUMINATOR PRO III

- Built-in automatic canceller
- Built-in load equalizer
- Front run and turn signal for single filament bulbs, halogen bulbs and L.E.D.s
- Rear run, brake and turn signal functions like the Illuminator module
- Emergency flashers without heating up
- Cancels at any time for quick lane changes

49-9224 **$118.95**

BADLANDS AUTO SIGNAL CANCELLER III

- Allows you to activate your turn signals with the touch of a button (you don't have to hold it down)
- Turn signals will flash for approximately 11 seconds and then automatically shut off
- Installation is easy, with only 6 wires to connect
- All H-D models without self-cancelling signals

49-9201 **$74.95**

BADLANDS ILLUMINATOR PLUG-IN STYLE

- 3 in 1, turn stock or custom turn signals into running lights, brake light and maintain turn signal function
- Increases visibility from the rear of the motorcycle

Features:

- Designed for security system Harley-Davidson® as well as earlier style signal modules
- Built-in load equalizer
- Works with stock O.E.M. turn signals
- Runs with the smallest turn signals, even L.E.D.s
- Works on single filament bulbs, including Halogens
- Runs multiple marker lights or turn signal
- Comes with easy to follow diagram and instructions
- Made in USA by real bikers

Description	P/N	Retail
99-03 XL; 97-07 Dyna; 96-07 Softail (exc. 04-up Deuce); 97-07 Road Glides and all FLH, FLHT, Road Kings	49-9213	$118.95
04-Up Sportster	49-9199	118.95

BADLANDS AUTOMATIC TURN SIGNAL CANCELLING MODULE: PLUG-IN STYLE

- Available in 3 different plug-in styles
- Simply plug-in and replace O.E.M. canceller

Features:

- 11-second time flashing that automatically cancels and can cancel manually at any time (quick lane change)
- Built-in emergency flasher mode
- Built-in load equalizer run L.E.D.s up to 100 watts per side
- Measures 2-7/8" long x 1-3/8" wide x 7/8" deep
- Made in USA by real bikers

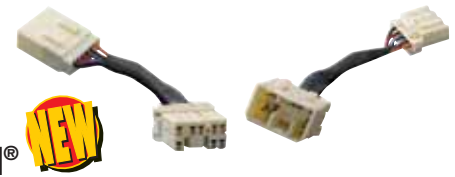
KURYAKYN® MODULES & LOAD EQUALIZERS

KURYAKYN® REAR RUN-TURN-BRAKE CONTROLLER WITH PULSE BRAKE

- This module makes single filament or single circuit turn signals on the rear of the bike function as running lights, turn signals and brake lights; not just brake/turn
- Can be used with stock turn signals or any single filament light you may already have installed on the rear of your bike
- Completely plug-in for most 96-newer Harley-Davidsons® with single filament turn signals and a taillight with running and brake functions
- Compatible with 02-later H-D factory cruise control
- Pulsing Brake feature can be turned on or off easily
- Fits 97-11 Electra Glide; 98-11 Road Glide (exc. 2009 FLTRSE); 06-09 Street Glide; 97-11 Road King; 96-10 Softail (exc. 08-10 FXCW/C; 2010 FLSTSE); 97-11 Dyna (exc. 09-10 FXDB; 2010 FXDWG); 99-03 Sportster

Note: For installation on earlier models or 04-11 Sportster (exc. 07-11 XL1200N; 10-11 XL1200X; 10-11 XL88N), see adapter harnesses 41-9066 and 49-4815, sold separately. Not compatible with aftermarket or accessory modules that alter the functions of the stock taillight and turn signals. If you have already made modifications to your bike's taillight and/or turn signals, you will have to return your bike to stock form before installing this controller. Bikes equipped with factory security system and low-draw or L.E.D. lights also require 41-9068, sold separately.

49-4842 **$89.99**



KURYAKYN® 6-PIN TO 8-PIN ADAPTER

- Required for installation of Panacea Taillights or Run-Turn-Brake Controllers
- Mfg/N 4831
- Fits 04-11 XL (exc. 07-10 XL1200N; 10-11 XL1200X; 10-11 XL883N)

41-9066 **$14.99**

KURYAKYN® 8-PIN HARDWARE ADAPTER

- Fits 91-95 Softail; 91-96 Dyna, Electra Glide, Tour Glide, Road King; 91-98 Sportster
- This splice-in 8-pin adapter is required to install Panacea taillights or Run-Turn-Brake controller
- Sold individually
- Mfg/N 4832

49-4815 **$14.99**

KURYAKYN® FRONT RUN-TURN CONTROLLER

- Fits 96-08 Softail; 97-05 Dyna, Electra Glide, Road Glide, 97-06 Road King; 97-10 Sportster
- Module plugs into the stock wiring harness and makes single filament custom lights function as running lights and turn signals
- 1 controller required per pair of lights
- Mfg/N 4865

49-7298 **$51.99**

KURYAKYN® 2 AMP LOAD EQUALIZER

- Universal load equalizer for use when stock turn signals are replaced with L.E.D. or other low-draw lights
- 1 required for each pair of lights
- Mfg/N 4810

41-9065 **$18.99**

KURYAKYN® ALARM COMPATIBLE LOAD EQUALIZER

- When either a Panacea System or a Run-Turn-Brake Controller is installed on a late model H-D equipped with a factory security system (T.S.S.M.) and L.E.D. or low-draw turn signals, the security remains fully functional, this product does not disable the system in any way
- If you find the illuminated security light offensive, simply plugging in this optional load equalizer will correct the situation
- Mfg/N 4857

41-9068 **$29.99**

KURYAKYN® LOAD EQUALIZER ADAPTER

- Allows splice-free installation of Kuryakyn® load equalizers equipped with 3-pin connectors
- Mfg/N 4837
- Fits 97-11 Electra Glide; 98-11 Road Glide (exc. 2009 FLTRSE; 10-11 FLTRX); 06-09 Street Glide; 97-11 Road King; 96-10 Softail (exc. 08-10 FXCW/C; 2010 FLSTSE); 97-11 Dyna (exc. 09-11 FXDB; 10-11 FXDWG); 99-03 Sportster

41-9067 **$14.99**

BIKER'S CHOICE

NEW PART NUMBERS ARE RED

BIKETRONICS SMARTEQUALIZER™

- The "original" low-heat plug-in computerized load equalizer
- O.E.M. connectors provide plug-n-play simplicity
- Unusually small size - perfect for motorcycle applications

Application	P/N	Retail
01-12 H-D Models (exc. V-Rod, Sportster)	47-2017	$59.95
04-12 Sportster Models	47-2019	59.95

For Self Canceling Turn Signal through 2000 (3 wire-in version)	47-2023	39.95

RADIANTZ BRAKE LIGHT MODULE

- Designed for L.E.D. and incandescent brake lights
- When you apply your brakes, it causes your brake light to automatically emit a visual alerting signal
- 4 different modes of operation:
  3 flashes - solid
  3 flashes - solid - repeat
  3 strobes - solid - repeat
  3 strobes - solid
- L.E.D.s can turn-on and off faster than stock bulbs
- In the strobe mode, this module can turn L.E.D. brake light on and off approximately 10 times per second

21-1337 **$28.80**

BIKETRONICS TAILBONES - RUN/TURN/STOP MODULES

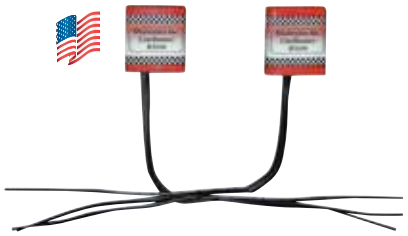
- Add both running light and stoplight function to rear turn signals
- Will not interfere with O.E.M. alarm behavior
- Pigtail kit for wire-in installations also available
- Custom builders use TailBones to eliminate taillight

Application	P/N	Retail
All H-D Models (exc. 04-12 Sportster)	47-2003	$69.95
04-12 Sportster	47-2005	69.95

BIKETRONICS FRONTRUNNER

- Dual filament running light emulator for using single-filament bulb or L.E.D. turn signal on front of bike
- No load equalizer required when using stock or halogen turn signals
- Low profile modules for easy fit

47-2013 **$69.95**



BIKETRONICS LINERUNNER

- Tiny wire-in dual filament running light emulator for using single-filament bulb or L.E.D. turn signal on front of bike
- No load equalizer required when using stock or halogen turn signals
- Low profile modules for easy fit

47-2015 **$69.95**

BIKETRONICS TAILSTOPPER - TURN/STOP MODULE

- Add stoplight function to rear turn signals
- Does not change O.E.M. alarm behavior
- Compact water tight automotive quality module

47-2007 **$59.95**

BIKETRONICS TAILRUNNER

- Provides auxiliary running light function for rear turn signals
- Compatible with H-D stop light module for full run/turn/stop function
- Load equalizer unnecessary when using stock or halogen bulbs

47-2009 **$69.95**

BIKETRONICS INC. PAKPOWER™

- A handy plug-in auxiliary power plug for your TourPak
- Power or charge personal electronics ranging from cell phones to laptops in the cigar-type receptacle
- Unit comes with safety cap and in-line fuse

47-2029 **$29.95**

SIGNAL DYNAMICS

SIGNAL DYNAMICS BACK OFF BRAKE LIGHT SIGNAL MODULE

- This compact, solid-state electronic module converts your ordinary brake light into an attention-getting, visual-alerting device
- Module causes 3 short flashes, stays on for 3.5 seconds, then repeats the cycle for as long as the brakes are applied
- Please note: May not work on bikes that use L.E.D. lighting
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1000 $37.95

SIGNAL DYNAMICS BACK OFF XP/BRAKE LIGHT SIGNAL MODULE

- Compact, solid-state electronic module converts brake lights into 2 choices of visual alerting signals when brakes are applied
- Mode one emits 3 short flashes followed by one long flash (3.5 seconds); Repeats as long as brakes are applied
- Mode 2 emits 5 short flashes followed by a steady on light; light remains on until brakes are released
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1001 $42.95

SIGNAL DYNAMICS BACK OFF WIG WAG

- Compact solid-state electronic module converts brake lights into 2 choices of visual alerting signals
- Mode one emits 4 quick, alternating flashes of left and right brake light followed by 3 short flashes and one long flash of both brake lights; pattern of 3 short flashes and one long flash of both lights repeats as long as brakes are applied
- Mode 2 emits 4 quick, alternating flashes of the left and right brake lights followed by 3 short flashes of both brake lights and then a steady on; brake lights remain on until brakes are released
- Designed for motorcycles equipped with 2 brake lights located side-by-side
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1003 $42.95

SIGNAL DYNAMICS BackOff™ BRAKE HOLD MODULE NEW

- Keeps your brake lights on when you are stopped or stopping so you don't have to
- Easy Installation: simply install the Brake-Hold Module inline with the wire leading to the brake light, connect to a switched power source and ground wire and tap a wire into your bike's speed sensor
- Large power capacity: 12 volts DC, maximum capacity 10A
- Sealed weather resistant heat sink case
- Compact size: 2-1/4"L x 1-5/8"W x 5/8"H
- 1-year manufacturer's limited warranty

Note: Your bike must have Electronic Pick-Up Sensor.

48-2000 $64.95

SIGNAL DYNAMICS PLUG & PLAY HEADLIGHT MODULE NEW

- Now there is no need to cut or splice wires in order to install a headlight module on your bike
- With the Plug & Play Headlight Module, simply select which harness is needed for your bike, then plug it all together

Note: Harness sold separately. Please consult your owner's manual or local dealer to find the correct harness for your motorcycle.

KURYAKYN® SLIMELINE LOW-PROFILE TOMBSTONE TAILLIGHT WITH TURN SIGNAL MOUNT

- A new face on an old school tradition
- L.E.D. technology with a thin, low profile housing that lays back against the fender; a classic look for the 21st century
- Includes a complete run-brake L.E.D. taillight, chrome base plate/turn signal mount with built-in license plate light and a removable license plate bracket
- Requires the sleek Silver Bullets #49-5379, sold separately
- For custom applications

Note: This taillight will not replace a stock H-D taillight on a stock H-D fender without extensive modification and fabrication. Installation of this product may be in violation of FMVSS #108.

LICENSE PLATE FRAMES

49-9180

49-9185

BADLANDS "WHISKERS" L.E.D. LICENSE PLATE FRAMES

- Chrome-plated, milled from 6061 billet aluminum assembled with the Whiskers-style lenses
- L.E.D. lighting in red, amber or red that turns amber when the turn signals are activated. With the red that turns to amber, you can have either run and turn or brake and turn. You can run the red L.E.D.s and the Illuminator for run, brake and turn signals
- Includes the new "No See Em's" clear lenses
- Install this license plate frame and keep your signals off the fender struts for that uncluttered look; if installing saddlebags, this will relocate your turn signals to the O.E.M. plate location
- Fits 7-1/8" x 4-1/16" license plates

Description	P/N	Retail	Description	P/N	Retail

PIAA SPECIFIC BULB DESIGN FEATURES:

- Metal bond that holds glass securely preventing cracks and leaks
- Heat resistant glass tube
- Welded focus ring assuring proper positioning
- 1-piece filament support for perfect positioning
- XTRA technology for greater output and performance
- 100% quality control testing for perfect performance
- 1-year manufacturer's performance warranty

Super Plasma GTX - Low beam is a purple color shining at 5000K while high beam maintains extreme white performance at 3800K. A purple colored top coat gives headlamp a purple look even when lamp is off

Star White - Bulbs operate at 3800K while normal halogen bulbs operate at 3200K

XTRA - Technology that boosts the light from standard wattage to equal a high wattage

Xtreme White - With a 4150 Kelvin color temperature, Xtreme White bulbs give a cool white light output. The closest color yet to H.I.D. This white light gives the driver better color recognition on depth perception and better contrast than conventional halogen lamps

Xtreme White Plus - The blue top coat on the 9000 series bulbs add a slight blue tint to the lamp with no loss of performance. Xtreme White Plus bulbs are whiter, brighter and close to the color of sunlight

PIAA

PIAA H4 SWIVEL BULB DISPLAY

PIAA NIGHT-TECH BULBS NEW

- Top coat and shade: exact positioning and focusing of the shade controls the low-beam pattern to prevent glare for oncoming vehicles thereby increasing safety
- Glass tube: quartz glass construction provides a high level of resistance to extreme temperature
- MO (molybdenum) foil: due to the similar coefficient of thermal expansion to glass, MO (molybdenum) foil is used to form a tight seal at the pinch sealing point
- Filament: low and high beam filament
- Pinch sealing
- Weld pins at terminals: Joining the bulb base with the terminal is accomplished by a patented welding process which is more resistant to heat and provides great durability when compared to the conventional soldering
- Up to 90% more light
- Up to 35m longer beam
- Up to 10% more white light
- Sold individually

BRITE-LITES HEADLIGHT BULBS

- High-quality replacement headlight bulbs; various exotic gases and coatings have been used to produce superior, super-trick lighting over standard, dull headlight bulbs
- Brite Lites are the industry leader in xenon gas-filled headlights, which produce a super-white HID-type headlight beam
- All Brite Lites are exact replacements for the stock headlight bulb and are available in standard wattages and in high-power versions
- Choose from several wattages, colors and the most-popular base types to fit most motorcycles and ATVs
- 2-pack Brite-Lites are packaged in a Tuff Pak storage case with full-color graphics
- Single pack Brite Lites are blister packaged on a full-color card

BRITE-LITES HEADLIGHT ACCESSORIES

- Colored caps snap onto standard H-4/P43t bulbs to produce a deep effect of color throughout the entire headlight beam
- Rainbow prism cage surrounds standard H-4/P43t bulbs to produce multicolored light through the side of your headlight; great for catching the eye of cross traffic with a full spectrum of colors; will not reduce bulb strength
- Caps and strobe sold individually

Description	P/N	Retail
Blue Cap	22-3979	$9.95
Yellow Cap	22-3980	9.95
Rainbow Strobe Cage	22-3978	26.95
